

**EXPLANATION**

- Domestic or stock well
- Irrigation well
- ⊙ Test hole drilled to determine geologic formations
- ⊕ Test hole drilled to determine ground-water level

257  
Number corresponds to well number or test-hole number in table

258  
Number corresponds to well number and number in table of water analyses made in Geological Survey laboratory

Contour lines on the water table  
Contour interval 10 feet  
Datum is mean sea level

A—A'  
Line of profile shown on plate 6

MAP OF KEITH COUNTY, NEBRASKA, SHOWING LOCATION OF WELLS FOR WHICH DATA WERE OBTAINED,  
LOCATION OF TEST HOLES, AND CONTOURS ON THE WATER TABLE

Base prepared from Keith Co.  
Soil Survey map

Compiled from data  
collected in 1935
