

EXPLANATION

- 37
Observation well
Number refers to U.S. Geological
Survey well number
- 1000
Lines showing thickness, in feet, of
saturated fresh-water-bearing deposits
Contour interval 100 feet

Base compiled from U.S. Army and U.S. Geological
Survey topographic maps, general highway maps,
Texas Land Office maps, aerial photographs,
and field notes, 1954.

0 5 Miles

MAP SHOWING SATURATED THICKNESS OF FRESH-WATER-BEARING DEPOSITS (CHLORIDE CONTENT LESS THAN 250 PARTS PER MILLION)
IN THE HUECO BOLSON AREA, TEXAS AND NEW MEXICO
