GEOLOGIC SECTION A-A', BEXAR COUNTY, TEXAS

Map and description of geologic formations in Bexar County, Texas. The map shows the locations and elevations of various geological layers, with annotations for specific formations.

Contents for the Lava Springs and Cenozoic strata are from Soifer et al. (1985), p. 142). Contents for the San Antonio Water Board's data are from the author's log. All other contents between formations were determined on the basis of electrical resistivity.
