

EXPLANATION

- Th Hawthorn Formation
  - Tu Rocks undifferentiated (mostly Congaree) and Barwell Formations and some McBean outliers
  - Tb Barwell Formation
  - Tm McBean Formation
  - Kt Tuscaloosa Formation
  - Cr Crystalline basement rocks
- Geologic contact  
Dashed where approximate
- BW-33 Nonflowing well
  - AK-312 Flowing well
  - AK-A Spring
- Letter and number indicate location of well or spring
- Boundary of study area
- Note: Geologic profile A-A' shown on plate 3

GEOLOGIC MAP SHOWING LOCATION OF WELLS AND SPRINGS IN THE  
SAVANNAH RIVER PLANT AREA, SOUTH CAROLINA

Base from Army Map Service 1:250,000 series:  
Athens, 1953; and Augusta, 1957

INTERIOR—GEOLOGICAL SURVEY, WASHINGTON, D.C.—1967—W6234
