

EXPLANATION

Boundary of report area

— 50 — Isohyet

Shows mean annual precipitation for period 1931-63. Interval 5 and 10 inches

■ 36 Precipitation station and number

This map displays the state of California with various geographical features and administrative boundaries. The following details are visible:

- Geographical Features:** Major rivers such as the Sacramento, San Joaquin, and Colorado are shown. Mountain ranges like the Sierra Nevada and Coast Range are indicated by shaded areas.
- Administrative Boundaries:** County names are printed across the map, including Humboldt, Trinity, Shasta, Tehama, Colusa, Yolo, Sonoma, Contra Costa, Alameda, and San Francisco.
- Isopleths:** Blue lines represent the boundary of the report area. A specific isopleth labeled "38" indicates the average annual evaporation level.
- Urban Centers:** Major cities like San Francisco, Oakland, Berkeley, and Sacramento are marked with dots and labels.
- Coordinates:** Latitude and longitude coordinates are provided along the edges of the map, ranging from approximately 37°N to 41°N latitude and 122°W to 124°W longitude.
