

WATER TEMPERATURE—For 90 percent of the time the water temperature was equal to or less than that shown

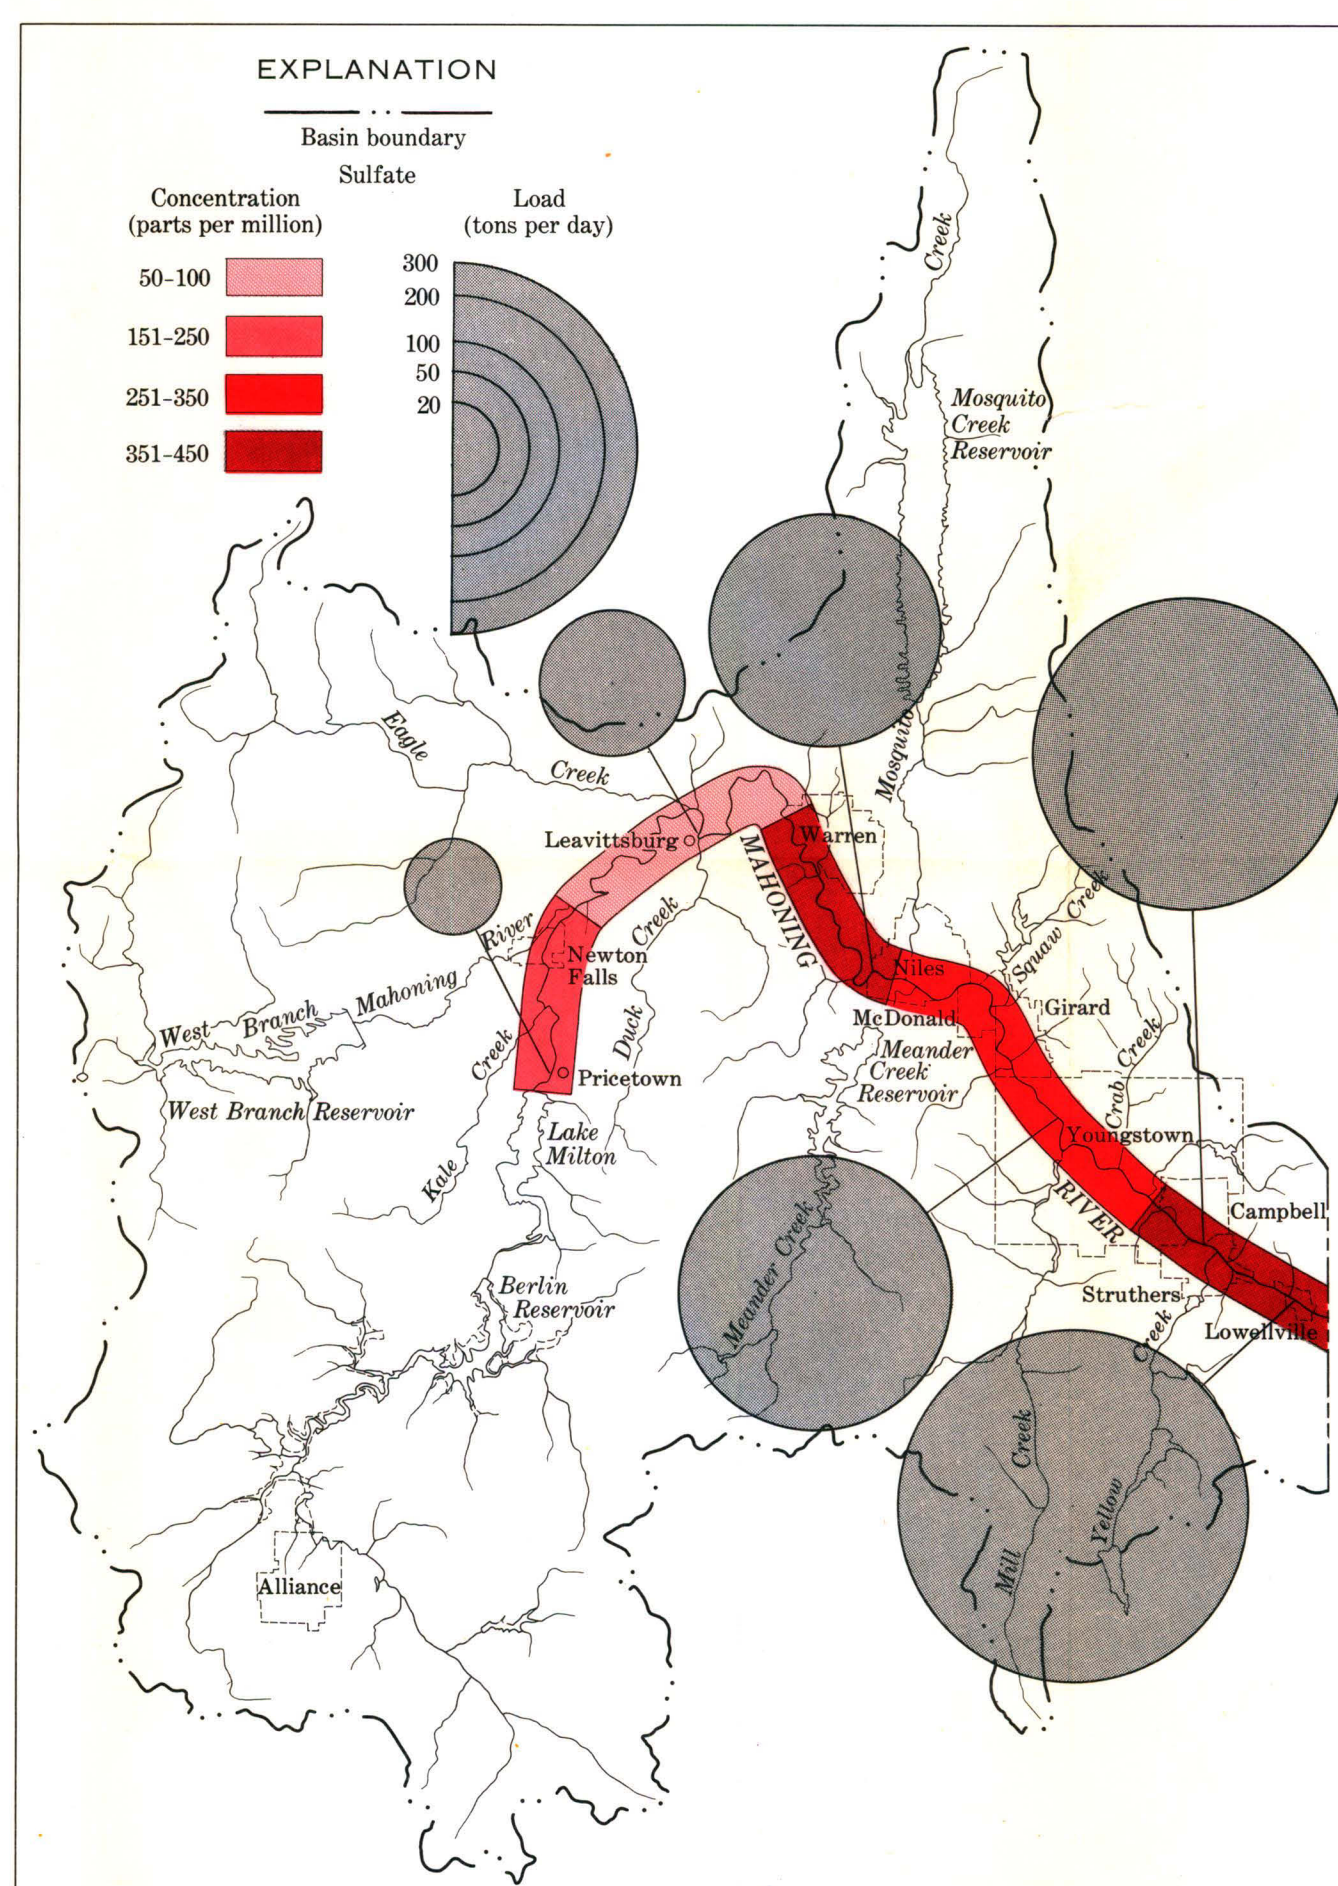

DISSOLVED-OXYGEN CONCENTRATION—For 10 percent of the time the dissolved-oxygen concentration was equal to or less than that shown

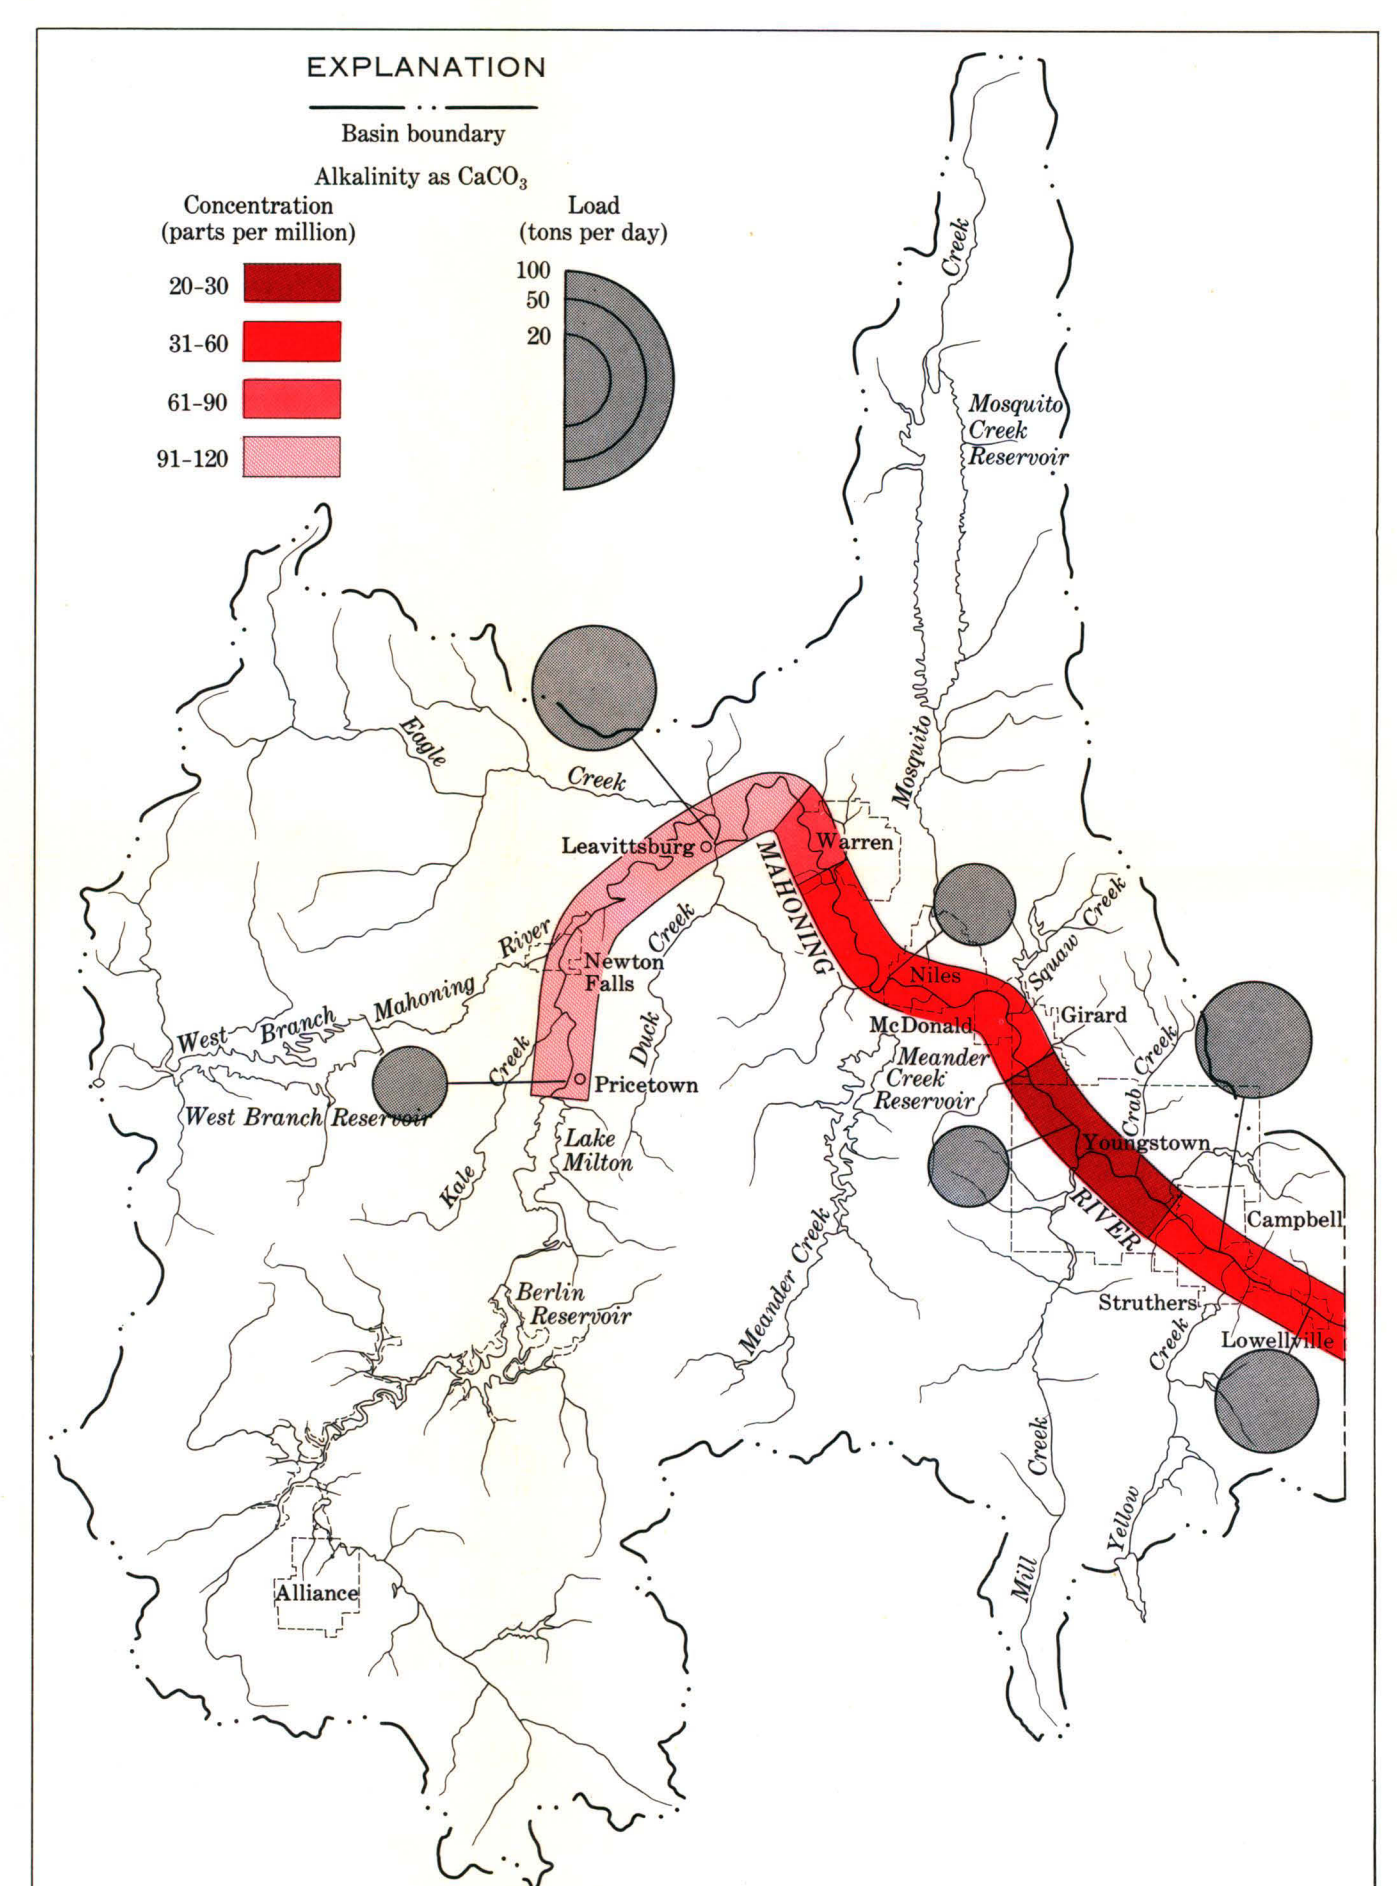

pH—For 10 percent of the time the pH was equal to or less than that shown

CHLORIDE CONCENTRATION AND LOAD DURING LOW STREAMFLOW
Discharge equalled or exceeded 90 percent of the time

SULFATE CONCENTRATION AND LOAD DURING LOW STREAMFLOW
Discharge equalled or exceeded 90 percent of the time

ALKALINITY (AS CaCO₃) CONCENTRATION AND LOAD DURING LOW STREAMFLOW
Discharge equalled or exceeded 90 percent of the time
