EXPLANATION

Qa Alluvium
Unconsolidated deposits of Quaternary age

Ts Sedimentary rocks
Marine and continental rocks of Tertiary age. Ts(?) older sedimentary rocks beneath an unconformity, probably of Tertiary age

pTb Basement complex
Igneous and metamorphic rocks of pre-Tertiary age

Approximate contact

U Fault
D Fault

250 Seismic traverse
300 Seismic traverse
Number indicates survey station

TH7 Test hole

6 Dry oil-test well

A1 Water well
Letter indicates position in section thus:

D	C	B	A
E	F	G	H
M	L	K	J
N	P	Q	R

Wells are numbered serially within each block

Dashed where approximately located, dotted where concealed, queried where doubtful. U, upthrown side; D, downthrown side. On geologic sections arrows indicate direction of relative movement
